Internship Regulations, para. 4). In individual cases it is possible to do the Internship in another time provided this does not interfere with the study programme schedule for the particular semester. **2. Institutions offering internship**

The institutions/companies offering the internship for students should operate within an international environment, which provides opportunities for developing students' linguistic and communicative competences and for achieving selected learning outcomes. The employee appointed by the institution/company to look after the apprentice (Internship supervisor) should have appropriate qualifications and professional experience.

The student may indicate the place of his / her internship or may use the places proposed by the University of Opole. This requires an opinion of the Internship coordinator (Appendix 4)

**3. Internship aims**

Internship should enable students to use their knowledge of a foreign language, its literature and culture, as well as provide them with opportunities to practice and develop their English in a professional environment. During the internship students are required to develop their problem-solving skills, information gathering and information processing skills, as well as submitting information in both written and oral forms following ethical principles. Additionally, students should be encouraged to participate in cooperative tasks. The acquired skills should facilitate students' employment in translation and interpretation bureaux, public relations, publishing houses, administration offices, advertising agencies, fundraising organizations, commercial, corporate or other business institutions, mass media, tourist industry, i.e. those sectors which require a good level of foreign language competence and awareness of cultural differences.
